PROFESSIONAL SUMMARY

Actuarial Science graduate from the University of Western Ontario with direct Employee Health & Benefits experience within the Marsh McLennan ecosystem, including prior experience at Mercer Canada as a Health & Benefits Analyst. Reviewed health, dental and pharmacy benefit plan documents across multiple client accounts, identified discrepancies between policy iterations, compiled benefits data into structured Excel reporting models supporting medical and pharmacy cost analysis and communicated benefit plan updates within a consulting team environment.

Strong quantitative foundation supported by passed SOA Exams P and FM, academic training in Financial Modeling, Regression and Life Contingencies, and recent hands-on experience in AI tool development, data evaluation and analytical review. Independently designed and deployed four live AI-powered applications under SkyStarter Creative — demonstrating technical initiative, problem-solving ability and the capacity to build functional analytical tools from concept to production. Brings a distinctive combination of actuarial training, analytical rigor, entrepreneurial execution and strong communication abilities developed through years of independent project leadership.

CORE COMPETENCIES

Actuarial & Analytical	Technical Tools	Professional Strengths
Health & Benefits Analysis	Excel / PowerPoint / R	Stakeholder Communication
Policy & Plan Review	AI Tool Development & Deployment	Project Management
Benefits Reporting	Pricing Model Support	Presentation & Writing
SOA Exam P & FM (Passed)	Medical & Pharmacy Cost Modeling	Analytical Tool Development

PROFESSIONAL EXPERIENCE

Mercer Canada (Marsh McLennan)

London, Ontario, Canada July 2012 – October 2012

Health & Benefits Analyst

- Reviewed and cross-referenced employee benefit plan insurance policies and handbook editions against prior-year versions across multiple client accounts, identifying discrepancies and material changes in health, dental and pharmacy plan terms for consultant review
- Compiled and maintained structured Microsoft Excel reporting and pricing model support spreadsheets to organize, track and summarize employee benefits data across multiple client accounts simultaneously - gaining foundational exposure to the analytical tool development processes central to actuarial consulting
- Modeled and reported benefit plan findings and status updates within a 4–6 person Health & Benefits consulting team — developing early experience communicating the financial impact of plan changes and medical and pharmacy cost drivers to internal stakeholders
- Worked within the Marsh McLennan compliance framework, completing required training and adhering to professional standards governing confidentiality and client data

SkyStarter Creative — Independent Digital Business & AI Tool Development

Founder, Operator & Developer

- Founded and managed an independent digital venture spanning creative production, audience growth, digital distribution and emerging technology exploration
- Independently designed, developed and deployed four live AI-powered web applications using modern development tools including Claude Code, Cursor and ChatGPT — demonstrating full-cycle technical execution from concept through production deployment
- SkyJourn (skyjournapi-ai.vercel.app) — AI-powered mindfulness and decision support application featuring three distinct modes: Spirit Mode for personal reflection, SkyJourn Mode for guided journaling, and Decision Mode for structured business decision analysis
- SellScript (sellscrip.vercel.app) — AI listing optimization tool generating SEO-enhanced product descriptions with before-and-after scoring, platform-specific keyword recommendations for Etsy, Shopify, Amazon and Facebook, and annotated explanations
- ClosedWon (closedwon-ruby.vercel.app) — AI sales follow-up tool generating personalized, psychologically-informed outreach messages with timing recommendations — designed for contractors, service businesses and solo entrepreneurs
- Built and managed a combined online audience of 45,000+ followers across TikTok, Instagram, YouTube and Facebook through data-driven content strategy
- Managed long-term independent projects involving budgeting, scheduling, digital distribution strategy, cross-platform coordination and emerging technology exploration including blockchain and Web3 infrastructure

DataAnnotation / Appen

AI Data Evaluator & Research Analyst

- Evaluated AI-generated content for logical consistency, factual accuracy and compliance with structured analytical guidelines
- Conducted multi-source research to verify data integrity and identify inconsistencies across large structured datasets
- Completed business data categorization projects using structured logical frameworks while maintaining high accuracy standards

Midac Equipment — Drilling & Blasting

Site Administrative Coordinator

- Designed and maintained Microsoft Excel spreadsheets to collect and track daily operational data across five categories — fuel consumption, equipment usage and wear, worker hours and productivity, drilling progress and output, and blasting materials and costs
- Created charts, graphs and weekly summary reports to communicate operational performance findings to project contractors and site leadership
- Collaborated within a 2–3 person administrative team to ensure data accuracy and consistent formatting across all reporting periods

Bank of Nova Scotia

Bank Teller

- Conducted financial transactions including deposits, withdrawals, currency exchange and fund transfers — establishing early foundation in financial numeracy, accuracy and professional service standards

EDUCATION

University of Western Ontario

Honours Bachelor of Science — Actuarial Science

London, Ontario, Canada | 2011

- Core coursework: Life Contingencies, Probability Theory, Loss Models, Survival Analysis, Financial Modeling, Regression Analysis, Time Series Analysis, Economics
- Technical tools: Microsoft Excel, Word, PowerPoint, R

PROFESSIONAL EXAMINATIONS

- SOA Exam P — Probability (Passed)
- SOA Exam FM — Financial Mathematics (Passed)

LEADERSHIP & DISTINCTIONS

- Valedictorian — Munro College (2002)
- Multiple award recipient in competitive debating and public speaking — Best Speaker, Optimist International Oratorical Competition (2001); National High Schools Debating Competition (2001); Science Teachers of Jamaica Exhibition (1999)
- International Representative — Represented Jamaica at Tourism & Travel Partnership Conference (Philadelphia, PA), Eastern Caribbean States Science Camp (St. Vincent) and Optimist International competition
- Outstanding Volunteer — London Youth Council Advocacy & Research Committee; Manifesto Jamaica; Afroresta London
